

8:30: Brew morning coffee.  
8:45: Start OneStep Charge integration.  
11:45: Accept first electronic payment.

That was easy.

What Will Pure Progress Mean For You?<sup>SM</sup>

**RELAX.** OneStep Charge<sup>SM</sup> is **the Progress world's most advanced electronic payment processing software**, specifically built to give burdened IT departments a break. Backed by outstanding payment processing industry expertise and renowned cost-reduction prowess, OneStep Charge<sup>SM</sup> takes the guesswork out of payment-enabling your Progress applications. Leverage our experience and find out why the OneStep Charge<sup>SM</sup> fully-qualified processing approach means outstanding processing cost reduction, from the Point of Sale (or MOTO/Internet) all the way to the bank. You could trudge through the non-Progress software jungle and kludge together a solution that you hope will work. Or you could **drop in Pure Progress<sup>SM</sup> OneStep Charge<sup>SM</sup> and stay focused on your best-of-breed application.** Pure performance, with realtime authorizations in 2 seconds, fully interleaved. Pure TCP/IP, with never a single drop-file. Pure security, with commercial-grade SSL encryption protecting every transaction. Pure leverage, with support for unlimited merchants in a single installation. Pure Progress<sup>SM</sup>. **Congratulations.** For More: OneStepCharge.com, pure.info@OneStepCharge.com, 866.461.8748.
